

Project Executable Files

Date	04 October 2026
Team ID	SWUID2026316986
Project Name	Farm Management System
Maximum Marks	3 Marks

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (Salesforce Custom Objects, Fields, Flows)	Yes
2	README / Setup Guide (Org Setup, Object Creation)	Yes
3	requirements.txt - Salesforce Metadata (NA)	NA - Salesforce Platform
4	Database schema - Farm__c, Crop__c, Farmer__c, Buyer__c	Yes
5	Environment config - Developer Org Credentials	NA - Cloud Based
6	Deployed URL - farmmanagement-dev-ed.lightning.force.com	Yes
7	APK / Executable - Not applicable (Web App)	NA
8	Dockerfile - Not applicable	NA
9	Test files - Validation Rules, Flow Tests	Yes
10	Demo video - Farm Management Demo (Drive Link)	Yes

Step 2: File / Folder Structure

```
/project-root
/force-app/main/default/objects - Farm__c, Crop__c, Farmer__c, Buyer__c
/force-app/main/default/fields - Custom fields + Dependent Picklists
/force-app/main/default/flows - Crop_Update_Flow, Buyer_Notification
/force-app/main/default/tabs - Farm, Crop, Farmer, Buyer, Reports
/docs - Farm_Management_System.pdf + README.md
```

Step 3: Deployment / Access Details

Field	Details
Hosted URL	https://farmmanagement-dev-ed.lightning.force.com - Farm Management App
Login Credentials	Username: farm.manager@fms.demo / Password: Demo@2026
Platform / Hosting	Salesforce Platform - Lightning Experience
Repository Link	https://github.com/team-SWUID2026316986/Farm-Management-System
Demo Video Link	https://drive.google.com/file/d/FarmManagementDemo_04Oct2026/view

Step 4: Run Instructions

1. Login to Salesforce Developer Org using demo credentials
2. Setup -> Object Manager -> Verify Custom Objects: Farm, Crop, Farmer, Buyer
3. App Launcher -> Search Farm Management System -> Open App
4. Check Tabs: Farms, Crops, Farmers, Buyers, Reports, Dashboards
5. Create test records: Farmer -> Farm -> Crop -> Buyer Transaction
6. Test Dependent Picklists: State -> District -> Village filters
7. Test Automation: Update Crop -> Flow triggers Buyer Notification
8. View Reports & Dashboards: Productivity, Sales, Yield Analysis

Step 5: Known Issues / Limitations

Known Issue / Limitation	Workaround / Status
Minor delay switching tabs	Resolved: Saranya S pre-opened all tabs & sample data
Validation error if fields empty	Workaround: Clear error message & Setup Guide
Storage limit for uploads	Mitigated: Using Reports instead of attachments
