

Solution Requirements

Date	03 October 2026
Team ID	SWUID2026317864
Project Name	Farm Management System
Maximum Marks	4 Marks

Define Functional and Non-Functional Requirements:

Create a comprehensive list of requirements to define exactly what your solution will do and how well it will perform.

- **Functional Requirements (FR)** define specific behaviors, functions, or features of the system (What the system should *do*).
- **Non-Functional Requirements (NFR)** specify the criteria that judge the operation of a system, rather than specific behaviors (How the system should *be*).

Fill out the descriptions and necessary details for each category provided below.

Step 1: Functional Requirements (FR)

S.No	Requirement Category	Requirement Description	Priority (High/Medium/Low)
1	Authentication	Secure Salesforce login using user accounts and authentication.	High
2	Authorization levels	Role-based access for farmers, managers, buyers and administrators.	High
3	External interfaces	Salesforce Lightning UI and Salesforce Cloud store and manage farm, crop, farmer and buyer data.	High

4	Transactions processing	Record farm, crop and buyer data with validation and relationships.	High
5	Reporting	Generate crop yield, sales and buyer transaction reports and dashboards.	High
6	Business rules, etc.	Validate dates, quantities and mandatory fields; automate updates and notifications.	High
7	Compliance to laws or regulations	Protect sensitive data using profiles, roles and sharing rules.	High
8	<i>Other</i>	Data entry, relationship mapping and dashboard visualization.	Medium

Step 2: Non-Functional Requirements (NFR)

S.No	NFR Category	Requirement Description	Target Metric / Acceptance Criteria

1	Performance & Speed	Fast access to system reports and records.	Reports in <3 sec
2	Scalability	Support growth in farms and users using cloud infrastructure.	Handles more farms/users
3	Security & Data Privacy	Protect data with profiles, roles and secure cloud storage.	Profiles & roles
4	Reliability & Availability	Provide continuous access with cloud backup.	24/7 access
5	Usability & Accessibility	Simple, user-friendly Salesforce Lightning UI.	Easy interface
6	<i>Other</i>	Maintain centralized farm records and support real-time analytics.	Centralized data; real-time analytics
