FARM MANAGEMENT SYSTEM - Project Documentation**User Story:**

In the Farm Management System (FMS), as a farmer, farm manager, or system administrator, I want to use a centralized Salesforce-based platform to record and manage farm, crop, farmer, and buyer information so that all agricultural data is stored securely and systematically. I want to enter and update farm details, crop production records, and buyer transactions easily through a user-friendly interface with proper validation rules. I also want real-time reports and interactive dashboards to analyze farm productivity, monitor sales, and make informed decisions.

1. INTRODUCTION**1.1 Project Overview:**

The Farm Management System (FMS) is a Salesforce-based application designed to digitize and streamline agricultural operations. It manages data related to farms, crops, farmers, and buyers while providing real-time insights through reports and dashboards.

1.2 Purpose:

- Digitize agricultural data management
- Improve data accuracy and accessibility
- Automate record handling
- Enable real-time monitoring
- Support data-driven farming decisions
- Enhance productivity and transparency

2. IDEATION PHASE

2.1 Problem Statement

PS	I am	I'm trying to	But	Because	Which makes me feel
PS-1	Farmer	Maintain farm & crop records	Data incomplete	Kept manually in registers	Frustrated & confused
PS-2	Farm Manager	Monitor productivity & sales	Reports delayed	Data scattered across files	Stressed & inefficient
PS-3	Buyer	Access crop & pricing	Info not updated	No centralized system	Uncertain & dissatisfied
PS-4	System Admin	Manage access & security	Unauthorized access	Access handled manually	Concerned & insecure

2.2 Empathy Map Canvas

Target Users: Farmers, Farm Managers, Buyers, System Admins

Think & Feel: Need accurate farm data | Pain: Data loss, errors | Gain: Automation

2.3 Brainstorming - Selected: Salesforce-based FMS

13. Conclusion & 14. Future Scope - Date: 04-10-2026

The FMS successfully digitizes agricultural data using Salesforce. Deployed & tested on 04-10-2026 by Saranya S.

Future: Mobile App, AI prediction, Weather API, IoT, Govt schemes, Price forecasting
